CARLISLE

Threatens to Leave the Democratic Party
—His Letter in Answer to the Invitation
to Attend the Sound Money Convention
at Memphis, Tenn., May 7.—The following letter was received in response to an invitation sent the secretary of the United States treasury to attend the "sound money" convention:

WASHINGTON, May 1, 1895.—Mr. W. J. Crawford, Chairman of the sound money delegation, has written to me communicating an invitation from the Merchants' exchange, the Cotton exchange, the Lumber exchange, and the Young Men's Industrial League, to be composed of delegates chosen by the people of the southern states as a believe in the necessity of a solid and stable currency and better banking facilities as a means to secure the same. The object to be considered at the proposed convention justifies the hope and belief that the people in all parts of the country will be represented in the deliberations of their most trusted citizens. While the whole country is deeply interested in the preservation of a sound currency, no part of it, in my judgment, is more so than the South. A popular view, however, seems to me to be that the result of the adoption of a decimal and fractional standard of value, bearing that a temperate and intelligent discussion of the subject is required, and that the best way to accomplish the result is to invite all the leading men in the South to a popular meeting, and to let them discuss the question. I am sure that the result will be a unanimous adoption of the plan of the convention.

J. COLEMAN

NEW YORK, May 7.—A special to the Press from Washington says: Secretary Carlisle said to a friend that the administration was so thoroughly committed against free silver that there could be no turning back now, even though the success of the free silver element in the democratic party were to assured.

"I am not confident as to the outcome," said the secretary, "although I am sure that the work which has now begun will have an effect upon democratic sentiment for beyond what appears probable on the surface; but if it should fail and next summer's democratic convention should be swept away by this free-silver tendency, I do not know what I would do. If the republican party should remain true to honest money I do not see how I could escape voting the republican ticket."

The administration is bending every energy to forcing its policy with regard to the currency on the democratic party. Mr. Cleveland believes that the reports that are spread of the free silver propaganda throughout the west have been grossly exaggerated.

It is believed that Mr. Cleveland would like to be president a third time. His ambitions to run as the candidate of the single gold standard on a democratic platform. He realizes that the accomplishment of such an overturn would be a personal triumph such as no American politician has ever yet achieved.

ELKHORN, W. Va., May 7.—The conference Sunday at Poachontas between the striking miners of Elk-horn and the working ones of Poachontas was a surprise in some respects. Trouble between the two bodies was fomented. To prevent an outbreak Gov. W. F. Fairchild, of Virginia, sent about 700 troops into the region, and sheriff and deputies were on the ground to keep after the law. The troops were at Harrison, a few miles away, ready to march at a moment's notice, but the men, 1,500 strong, did not go to it. It was quiet so far as they were concerned, and the meeting is regarded as a success.

All the miners of that place came out Monday to assault the issue.

TEXAS TORNADO.

Houses Blown Down, Stock Killed
and Farmers Levied.

The rainfall was heavy, San Antonio reporting six inches of rain in six hours. Rain and Wind-Damaging Dams in Alabama—Two Deaths.

DENISON, Tex., May 6.—A tornado passed over the eastern portion of this section Sunday morning. Houses were blown down, stock killed and fences leveled. The miners, a mostly obliterated, scattered bunch of peach trees being uprooted and blown away. No casualties are reported. The storm crossed Red river to the Indian territory, making a swath through the forest. At Aubrey sixteen miles north of here, the damage was about \$1,500. One house being demolished, the family escaping with difficulty. Near Carrizoontown dwellings were moved from their foundations, and all Van Alstyne houses and barns were unroofed and several serious casualties resulted. The rainfall in the central and western portions of the state was heavy. San Antonio reports six inches of rain in six hours.

BIRMINGHAM, Ala., May 6.—A wind and rain storm of extraordinary severity passed over the southern part of Culkin county late Sunday afternoon. All the wires are blown down and news of the damage is meager, although it is known to be great. The path of the storm was a half mile wide. Many buildings were destroyed and crops ruined. Two miles west of Hanceville the home of James Ellis was blown down and Ellis and his family of six were badly hurt. An 11-year-old boy has since died.

ATLANTA, Ga., May 6.—Families of victims of the tornado were held here Sunday evening. The wife of a brother who was killed in the storm was represented from St. Louis Center, which nearly平行于 the railroad tracks, exploded all day with violence of every description. From all sides there was nothing but blazes, dead horses, cattle, sheep, chickens, articles of wearing apparel, portions of houses and barns, pieces of wagons and farming implements, and everything movable were scattered along the route.

AYER'S CHERRY PECTORAL

"When my adopted son was seven years of age, he had a severe cold, and I could hardly bear to see him suffer from it. He coughed incessantly, and spit up blood. I tried every thing I could think of, but he constantly grew worse, and I feared the poor child would die. I gave him Ayer's Cherry Pectoral, being recommended to do so by the physician. This medicine gave the child speedy relief and effected a permanent cure." — Mrs. M. E. DEBAY, Liberty, Texas.

FRIDAY, MAY 10, 1895.

Senator Brice gives notice that he will resist the adoption of a free-silver plank by the Ohio Democratic State convention.

The Kentucky Populists believe in a waiting game, and their State convention has been postponed from May 10 to July 4.—C. J.

Hon. Henry C. Dixon, of Henderson, Gov. Brown's brother-in-law, has been appointed Private Secretary of the Governor.

The Colorado G. A. R. had a hot debate for several hours over the proposition to aid indigent ex-Confederate soldiers, and then tabled it.

In a letter to Hon. A. H. Sevier, of Texarkana, Secretary Carlisle says: "I have never made a speech or written a letter in favor of the free coinage of silver at the ratio of 16 to 1, or in fact, at any other ratio."

Dun's weekly review of trade says that business begins May in better condition than at any other time since the break-down in May, 1893. The volume is smaller now than it was then, but it is enlarging instead of shrinking.

Hon. Milt Hager, of Magoffin county, is a candidate for Railroad Commissioner in this district subject to the action of the Democratic convention. He is a loyal Democrat, a man of ability and business experience, and he would fill the office to the satisfaction of the State and the people. He is a whole-souled mountain man and this section would rejoice to see him nominated.

The Wilson tariff has been in operation a little over eight months and has produced \$130,600,000 revenue, and is increasing the production rapidly. The McKinley tariff produced only \$121,000,000 for the last fiscal year of its existence. You remember how much our enemies have howled about the Wilson tariff failing to raise sufficient revenue. When the cold facts appear they always put the same old wide gaping chasm between truth and the assertions and predictions of our friends, the enemy.

But the Plain People Will Lose.

Should free and unlimited coinage of silver prevail, there is a big chance for the robbing of millions. Ten thousand ounces of silver can be bought now for \$6,700 and it would coin \$12,925, leaving a net profit of \$5,225. The speculator and the mine-owners will have a bonanza under free coinage laws, and the desire for profit originated the wild scheme, which has taken so rapidly with unthinking people.—Stanford Interior-Journal.

FOOT SUCCESSES

Living the needed merit is more than make good all the advertising claimed for them, the following four remedies have reached a phenomenal sale. Dr. King's New Discovery, for consumption, coughs and colds, each bottle guaranteed—Electric Liters, the greatest remedy for Liver, Stomach and Kidneys. Huckle's Arnica Salve, the best in the world, and Dr. King's New Lits, which is a perfect pill. All these remedies are guaranteed to do just what is claimed for them and the dealer who names to attach his name will be glad to tell you of these sold at his doorsteps.

A Bed-Rock Principle.

"Equal rights to all and special privileges to none," has long been shibboleth of the Democratic party; that was used with telling effect upon the Republican system of protection. There are Democrats in Kentucky whose mouths were ever filled with this Democratic war cry when they fought the good fight of tariff reform, but now that they are arrayed with the Western silver miners—the most powerful and arrogant of all claimants for Government favor—this old Democratic slogan is heard no more. "Equal rights to all and special privileges to none" is almost a touchstone that determines a man's Democracy, but it is a sentiment that does not sit very well with that policy which demands that the Government's credit be used to make fifty cents of Western silver worth a good dollar. Even the Republican tariff-robbins never asked the Government to go so far. In the bestowment of special favors as to double the price of their product by law and clinch the gift by pledging the faith and credit of the nation.—Harrington Democrat.

As the Washington Post puts it the host vindictions the new tariff law has received come from the recent wage advances.

PAINTSVILLE.

Republcan convention here next Saturday.

In Morgan county on last Saturday, while splitting rails on a bank, Hod Gottlett was caught by a large oak rail-cut which rolled over his body, breaking four of his ribs and otherwise injuring him.

Miss Callic Johnson, daughter of W. H. Johnson, died suit in Johnson Circuit Court a few days ago against Wm. Fairchild, of this place, charging him with failing to keep a marriage contract with her. She wants \$5,000 in damages for breach of marriage contract. Miss Johnson is about twenty-four years of age and lives in the country, while Mr. Fairchild is more than fifty years old and lives in town. He owns nice and valuable property here and has several hundred dollars invested in government bonds, and is reputed to have quite an amount of cash; hence the suit. G. C. Middlecamp, who is a candidate for Representative, returned from East Point yesterday, where he has been sick with the measles for more than a week.

C. M. Cooper made a visit to Paintsville last week to see his sister, who is very sick.

Mrs. A. J. Ward and Mrs. Doctor Whitten, of Oil Springs, were visiting Mrs. G. H. Stipleton here this week.

ROCKEFELLER.

School Desks.

The Southern School has this, and more, to say of the school desk which Snyder Bros. are selling direct from the factory, without "middleman's" profits to be paid.

"The Columbia Automatic" is not only fair to look upon and pleasant to sit upon; it is made of the very best material, put together in the very best manner, and warranted to give the longest and best service. In all respects it represents the best advance that the manufacturer of school desks has made in the last decade. We have personally inspected its service in the school room and every step of its construction in the Plum School Furniture Company's factory, at Pluma, Ohio, and we believe that its make-up is the best that mechanism skill can turn out.

They deal fairly, ship promptly, mean what they say and do what they promise. After advertising for bids and examining desks submitted by many companies from many cities, the Committee on Salaries and Supplies of the Louisville School Board awarded the contract to The Pluma Company, considering the desk the best ever purchased by that city, after many years of business. This brand is a high testimonial, for the Louisville authorities always try to follow Noah Webster's advice—"Get the best."

Snyder Bros. are also arranging to supply a lower grade of desks to those who want the cheapest rather than the best.

Other things being equal it is to the advantage of the school districts to buy through home people. In case everything does not prove to be right, then you always have some one within reach to demand satisfaction from.

M. F. CONLEY.

Here's the Troubles.

It is the man who has the least to sell who talks most about "hard times." There is no market for all kinds of farm products, and in some lines the prices are better than for several years. The prices of live stock, for instance, are away up. Industry is often too scared to-wit:

The improvement of business which began or became noticeable simultaneously with the consummation of the agreement between the Government and the syndicate for the sale, for gold, of United States bonds, has been certain, though slow. The most assuring proof of returning trade activity and prosperity are to be found in the increased energy of the manufacturers, who are not only running their works upon full time, but increasing their plants, and, most gratifying and convincing of all, raising wages.—Philadelphia Ledger.

Lighting Hot Drops—

What a Funny Name!

Very True, but it Kills All Pain.

Sold Everywhere, Every Day—

Without Relief, There is No Pain!

Don't Stop Tobacco.

HOW TO CURE YOURSELF WHILE USING IT.

The tobacco habit grows on a man until his nervous system is seriously affected, impairing health, comfort and happiness. To quit suddenly is to sever a shock to the system, as tobacco, to an unaccustomed user, becomes a stimulant that his system continually craves. Barco Curo is a scientific cure for the tobacco habit, in all its forms, carefully compounded after the formula of an eminent Berlin Physician who made it in his private practice since 1872, without a failure, purely vegetable and guaranteed perfectly harmless. You can easily get what you want, while taking "Jacinto," it will notify you when to stop. We give a written guarantee to permanently cure any case with three boxes, or refund the money with 100 per cent interest. "Jacinto" is not a stimulant, but a scientific cure, it cures without the aid of will power and with no inconvenience. It leaves the system as pure and free from disease as the day you took your first cigarette smoke. \$1.00 for all drugs, \$1.00 for three boxes, thirty days' treatment. \$12.00, prepaid direct upon receipt of price. Send Six Two Cent Stamps for Sample Box. Booklet And Price Free. Eureka Chemical & Manufacturing Company, Manufacturing Chemists, La Crosse, Wisconsin.

William Wilson, a Nicholas county farmer, and a tenant named Conyers, shot and fatally wounded each other.

The fiscal court of Christian county, which was expected to take action in the matter of building new temples in that county, at its last session decided that the county was not able to undertake the improvement at present.

A Mr. ASHER, of Tibben, Webster county, accidentally shot himself while handling a pistol which was thought not to be loaded. The ball penetrated the bowels and will probably prove fatal.

The trial of Marshal Frank Ellis, of Junction City, for the killing of "Cage" Rowsey, which was to have taken place at Danville, at the present term of the circuit court, has been continued.
